

Spectrum Series

A new approach to value-priced contemporary lecterns, Sound-Craft's Spectrum Series provides an attractive, yet functional and durable lectern at a most affordable price. Models include the CFL floor lectern, CML modular lectern that easily converts from a floor to a table model, and CTL table top lectern.

Constructed of structural fiberboard covered in polypropylene carpet-like material, the finish is extremely durable and abrasion, stain, and fade resistant. Velcro® compatible, it readily accepts signs or logos equipped with hook tape. The top and base are of oak, walnut stained oak, or a black painted oak. A reading light is included, as are two rear mounted casters for easy mobility. A convenient storage area is provided for materials and supplies.

Available Options Include:

- Custom cutout
- Cable port outlet
- Duplex outlet
- Task light
- Digital clock/timer
- Microphone mount
- Built in sound system
- Protective cover
- Custom logos
