

SC Series Lecterns

Back to basics with a simple rectilinear design that lends itself to a variety of applications. Available in 27" or 36" widths, all models are 24" deep to accommodate an optional slide-in rack box with up to 13 rack units of available space. A full width shelf provides convenient, at-hand storage for presentation accessories. Matching existing décor is simple, with a broad range of wood veneer, plastic laminate, and carpeted finishes from which to choose. All work surfaces are covered in Nevamar ARP laminate for the most durable, scratch-resistant finish available.
