

Rack Mount Enclosures

Whether paired up with your Sound-Craft Systems, Inc. Multimedia lectern, or used as a stand-alone equipment enclosure, Sound-Craft Systems has the perfect solution to your equipment storage needs.

Available in both the Presenter Series rectilinear style as well as the Camberlin radius corner design, Sound-Craft rack mount enclosures are available in 16, 20, and 24 rack unit capacities. The Presenter Style enclosure is 25 1/8" wide x 26" deep*. The Camberlin Style is 28 3/8" wide x 26" deep*.

All enclosures include locking front access panel, Euro-hinged door, rack rails, ventilation louvers, and casters. Options include pocket pivot door, cooling fan, and wiring duct. Adjustable shelves available in lieu of rack rails.

Eight standard wood veneer finishes, a full range of plastic laminates from Nevamar, Wilsonart, and Formica, plus seven standard carpet colors offer a wide range of finishes from which to select, with custom matching also available.

*Note - additional 5" depth required for pocket pivot doors.
